### Announcement

OAK BROOK, Ill. - TreeHouse Foods, Inc. (NYSE: THS) today expanded its voluntary recall of products containing sunflower kernels which may be contaminated with *Listeria monocytogenes* (*L.mono*).

This follows the announcement on May 18, 2016, by our supplier SunOpta of its expanded recall of sunflower kernels which have the potential to be contaminated with *L. mono*.

*L.mono* is an organism, which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, Listeria infection can cause miscarriages and stillbirths among pregnant women.

Product was distributed nationwide through retail stores. The additional products being recalled as part of the expansion are listed below. Consumers can find UPC codes and Best By/Date Codes on each package.
